WORK EXPERIENCE

Product Design Intern | INTERSECT

Toronto, ON | May 2017 - Aug 2017

- Redesigned UI and UX flow of 'Photos & Docs' and 'Report Builder' for Claims Connect (responsive web app), responsible from ideation until feature shipment
- Created interactive prototypes using InVision to validate decisions
- Created user flow and mid fidelity prototypes for a mobile app for Lindt Chocolatier

Product Design Intern | Noom Inc.

New York City, NY | Sep 2016 - Dec 2016

- Designed UX flow and Marvel prototypes for Noom Coach on iOS and Android
- Created the design system to help organize and document UX interaction patterns and UI elements across multiple development platforms

UX Design Intern | Uken Games

Toronto, ON | Jan 2016 - Apr 2016

- Created interactive mid and high fidelity prototypes for in-game systems of multiplayer mobile game using Sketch and Photoshop
- Co-facilitated usability testing consisting of over 40 playtesters
- Synthesized playtest data and presented insights to inform product changes

PROJECT EXPERIENCE

Graduate Product Designer | Partnered with Intel

Seattle, WA | May 2019 - Aug 2019

- Validated design using Figma and Principle prototypes in usability studies for prioritizing features for an AI-driven desktop virtual workspace
- Defined product strategy, user stories, and system architecture for the project
- Led product review and sprint planning meetings on a team of 4 graduate students

Graduate Design Researcher | Partnered with Microsoft HoloLens

Seattle, WA | Feb 2019 - May 2019

- Conducted ethnographic interviews with 20 filmmakers and film experts to unearth opportunities for designing mixed reality HoloLens applications for filmmaking
- Presented research findings and design opportunities to Microsoft MRW

EDUCATION

Master of Human-Computer Interaction and Design

Seattle, WA | Sep 2018 - Aug 2019
