WORK EXPERIENCE

Product Designer | Clio

Toronto, ON | Nov 2020 - Current (1 year 5 months)

- Lead design for the App Ecosystem team at Clio, with a strong focus on equal partnership with engineering and PM to ship iteratively and quickly.
- Designed and implemented several features that feed into an overarching product vision informed by research findings and strategic business needs.
- Increased app enablement rate by 400% across a 12 month period.

Product Designer | Roadmunk

Toronto, ON | Dec 2019 - Nov 2020 (1 year)

- Introduced rigor in the product development process by testing and iterating design concepts early across multiple cycles with both current customers and non-customers
- Incorporated UX research, ideation, prototyping, and user testing into the product delivery phase to deliver outcome-driven products that are informed by user needs
